

Golden Brown Haven - Hotel Management Web Application

Annotated hotel management screenshots for LinkedIn/portfolio publishing.

Project Overview

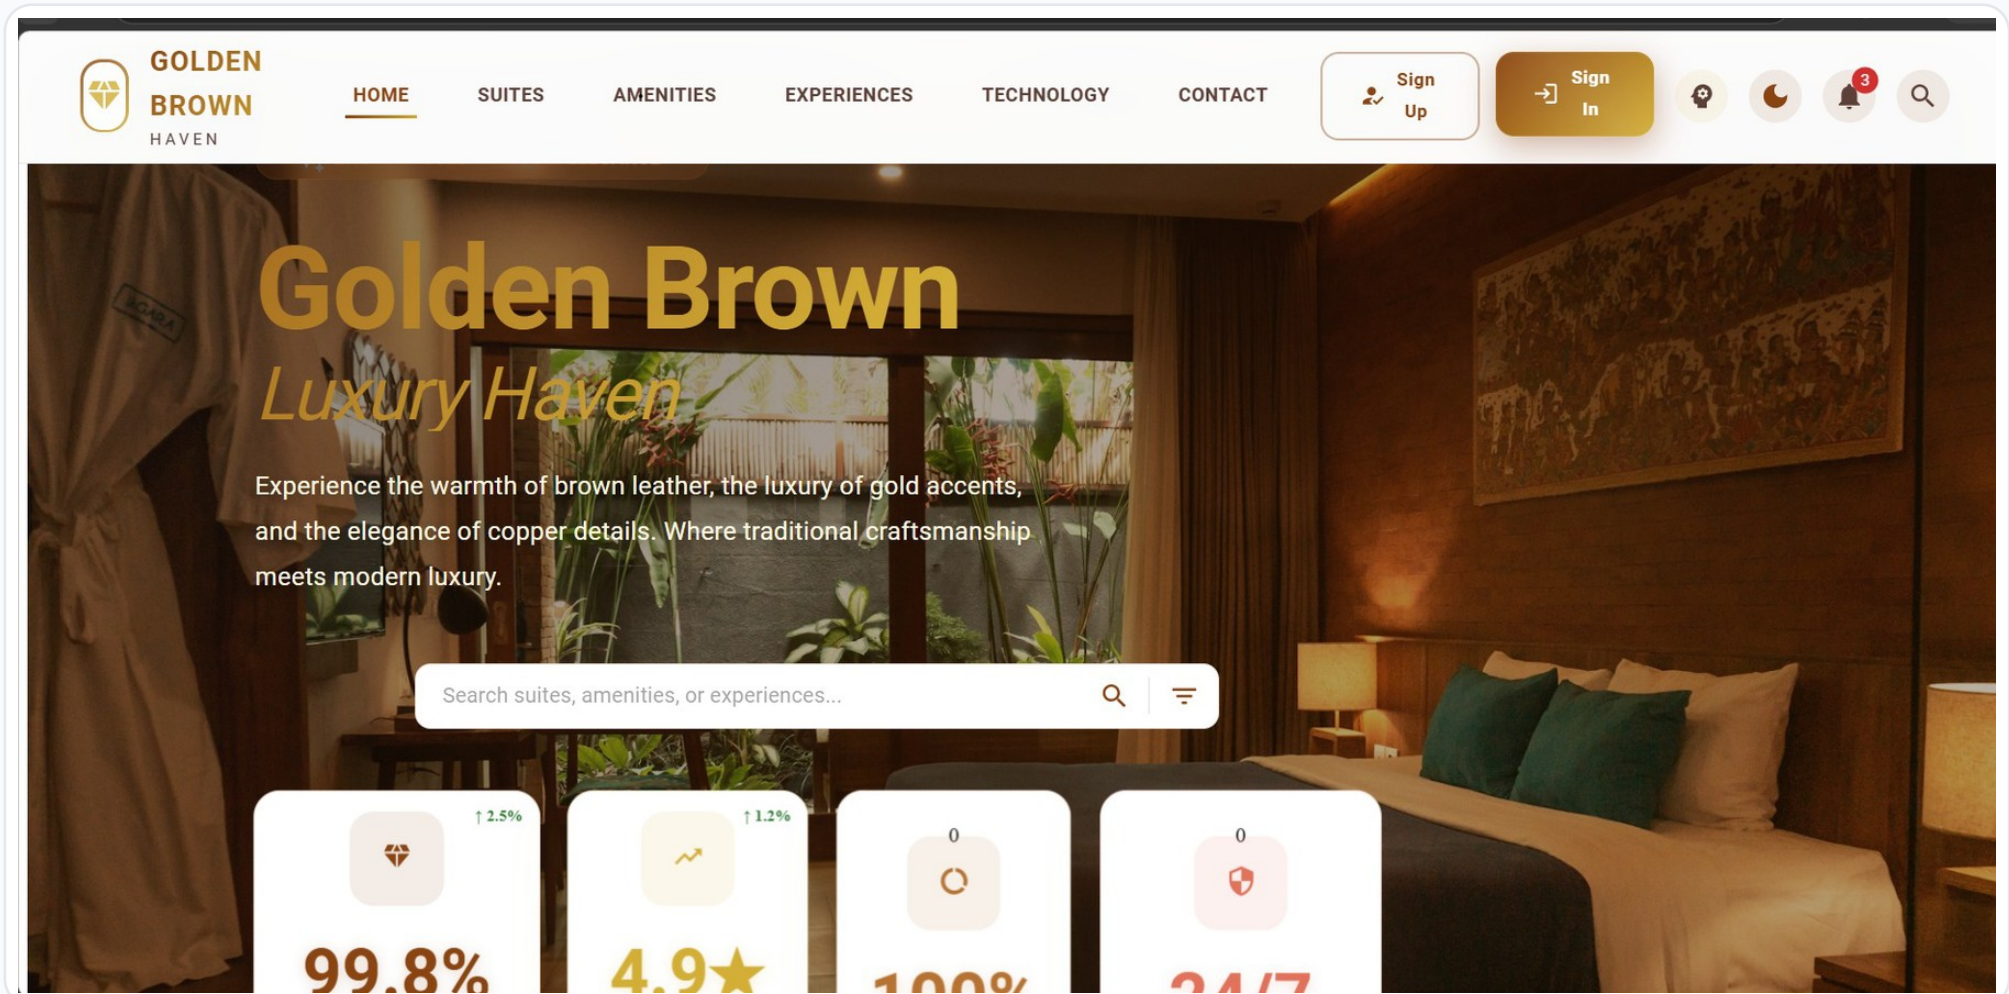

Golden Brown Haven is a luxury hotel and resort management web application with customer booking features and admin management dashboards.

Main Features

Landing page, multi-step signup, login, room browsing, booking confirmation, favorites, my bookings, customer dashboard, room management, guest management, booking management, analytics, settings, profile, dark/light mode, and report export.

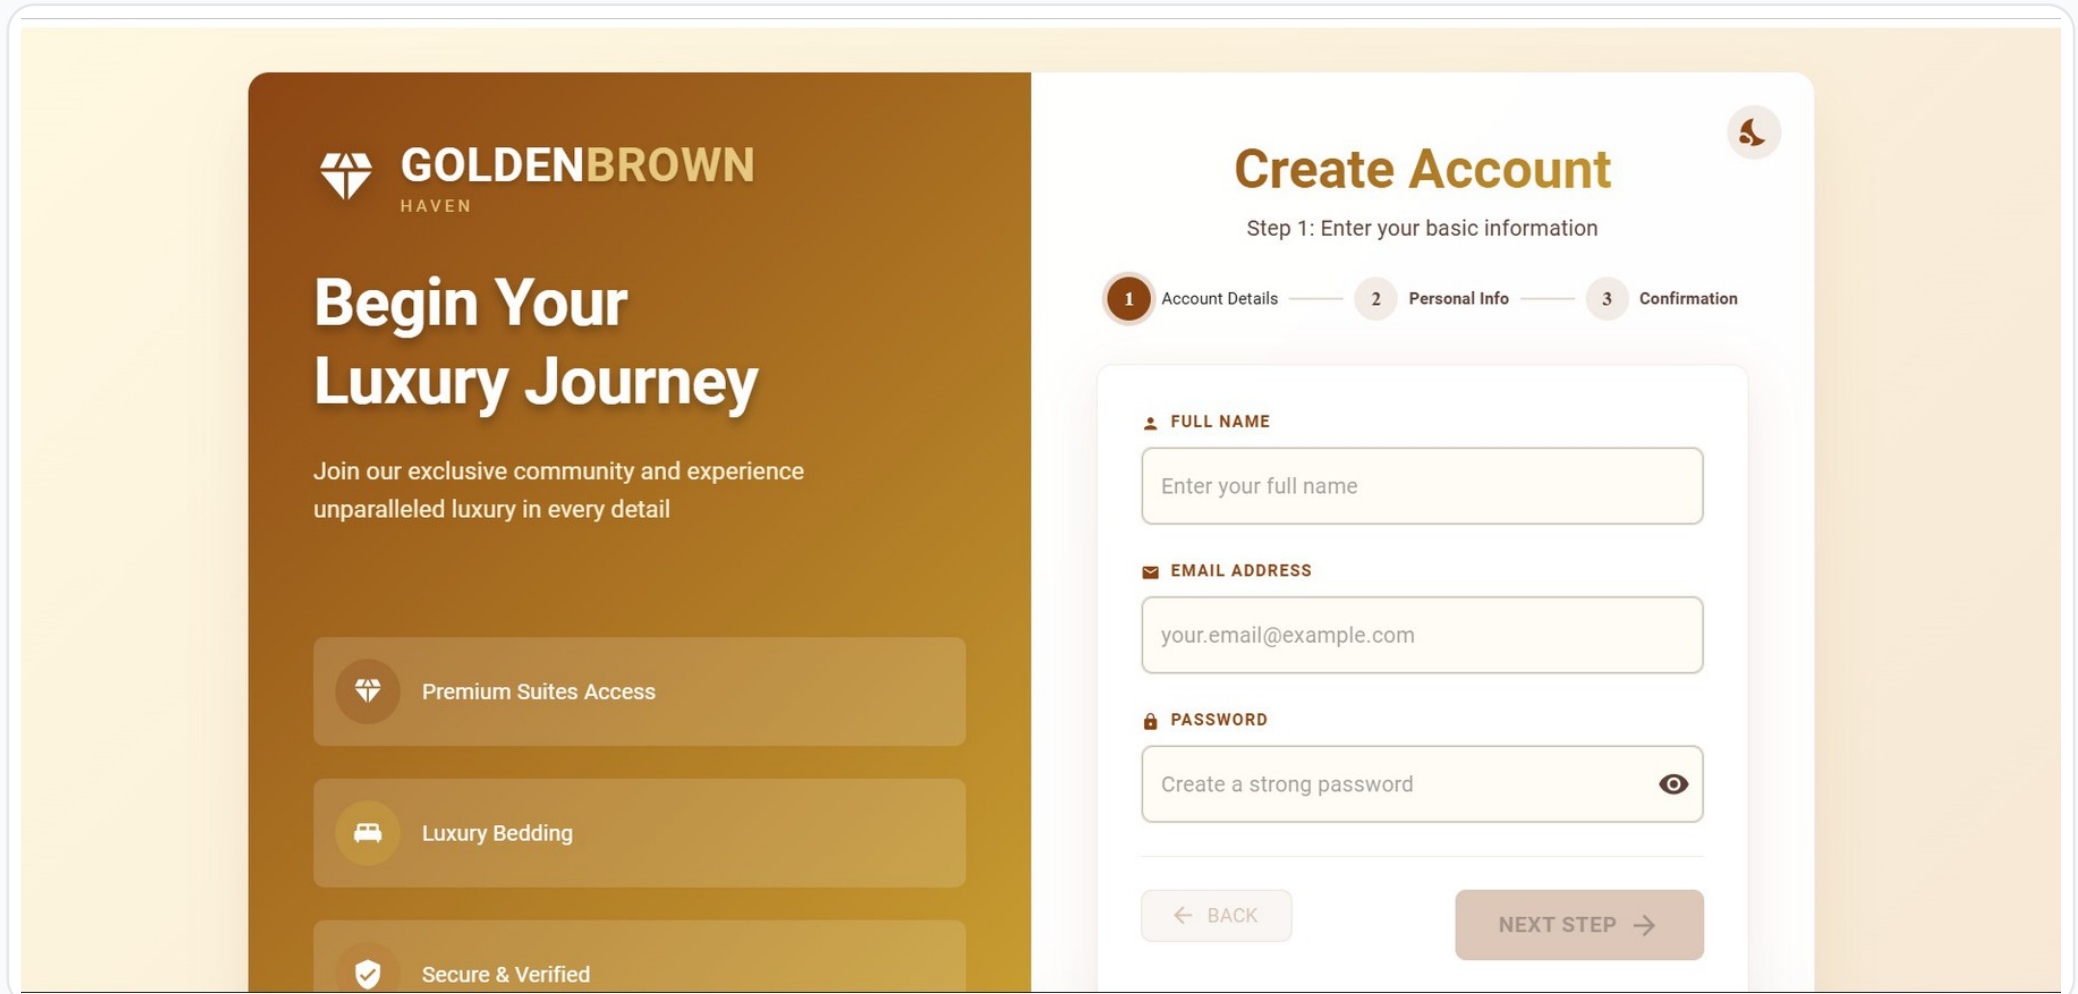

Tech Stack

Based on the project details shared: React frontend, Spring Boot backend, SQL database, JWT authentication, and AWS image bucket support.

What this screen shows: Hotel Landing Page

Public homepage for Golden Brown Haven with navigation, hero section, hotel branding, search bar, ratings/stat cards, sign up/sign in buttons, and theme/search icons.

The image shows a mobile app screen for creating an account. The screen is split into two main sections. The left section, with a dark brown background, features the 'GOLDENBROWN HAVEN' logo at the top. Below the logo, the text 'Begin Your Luxury Journey' is prominently displayed. Underneath this, a smaller line of text reads 'Join our exclusive community and experience unparalleled luxury in every detail'. At the bottom of this section, there are three horizontal bars, each with an icon and text: a diamond icon for 'Premium Suites Access', a car icon for 'Luxury Bedding', and a shield icon for 'Secure & Verified'. The right section, with a light beige background, is titled 'Create Account' in a large, bold font. Below the title, it says 'Step 1: Enter your basic information'. A progress indicator shows three steps: '1 Account Details' (active), '2 Personal Info', and '3 Confirmation'. The 'Account Details' section contains three input fields: 'FULL NAME' with a placeholder 'Enter your full name', 'EMAIL ADDRESS' with a placeholder 'your.email@example.com', and 'PASSWORD' with a placeholder 'Create a strong password' and a toggle eye icon. At the bottom of the right section, there are two buttons: a '← BACK' button and a 'NEXT STEP →' button.
